

# Plan of the Day

Meet in the conference room and get assignment. Review plan of the day.

Get report on patients from floor Nurse & communicate assignment with C.N.A./Tech

**Assess** each patient – *first priority*

**Document** assessment on computer assessment flow sheet by \_\_\_\_\_

**Communicate with nurse about all meds: what you will give and won't give.**

After assessing – plan care for each patient. Provide care as appropriate...

**Meds**, bed, bath, hair care, oral care, activity, tidy room, and any procedures.

*\*\*Find instructor for all meds, treatment, procedures, and dressing changes.*

***Instructor must witness all meds administered by student.***

**Document** assessment, meds: appetite, bath, vital signs, I&O and activity ....

**Review** chart and collect information for shift change report.

Check on patient frequently.

Take vital signs and document. Assist with room service ordering and assist with trays.

- **Communicate with nurse: all information related to patient needs.**
- **Communicate with instructor: all student needs.**

**Report off** to Nurse; meet in conference room prepared for verbal shift change report.

Assignments per Instructor include: Patient data forms, med classification sheets,  
clinical reflection, self -evaluation

Student is expected to comply with all CASPN policies as stated in student handbook.

**I completely understand above plan and will comply.**
